Token Bonus

Consider an example:

For example, you have bought **Diamond Plan** for **50 000 BUX**.

Your token bonus is **X2.6**

It means that within the year (52 weeks) you will get **130 000 BUX**. Tokens will be charged equally, **2500 BUX (5%)** per week.

So let's suppose how much you can earn:

The estimated cost at the time of purchase: **1 BUX=\$ 0.2**

The cost of the plan: **50 000 BUX * \$ 0.2 = \$ 10 000**

The anticipated cost by the end of the plan: **1 BUX = \$ 1**

The cost of your BUX will be: **130 000 BUX * \$ 1 = \$ 130 000**

Your net income for a year will be: **\$ 120 000 (1200%)**

Diamond Plan

Token Bonus: **X2.6**

Sum	With Bonus	Duration	Per week
50 000 BUX	130 000 BUX	52 weeks	5% = 2 500 BUX

Price	Amount	Cost
1 BUX=0.2\$	50 000 BUX	10 000\$
1 BUX=1\$	130 000 BUX	130 000\$

The cost of plan at the time of purchase (50 000 BUX) - **\$ 10 000**

The cost of tokens received by the end of the plan
(130 000 BUX) - **\$ 130 000**

* Attention! It is an example, the profit can be either higher or lower, it depends on the price of the BUX

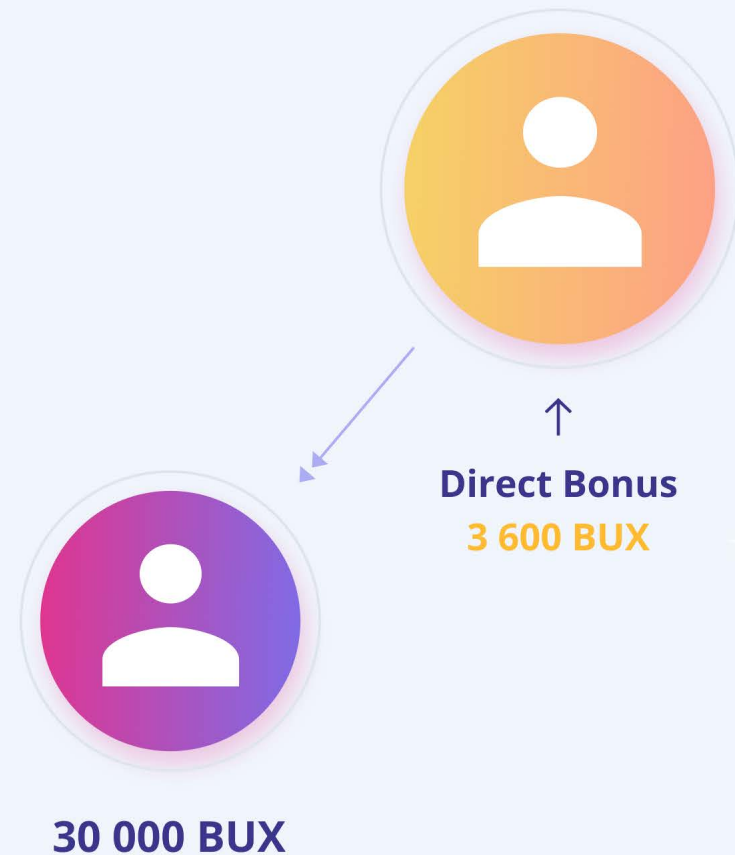

** No hidden fees

Direct Bonus

Each time you invite new partner to your team, you receive **DIRECT BONUS** (10-12% depending on your plan).

In this example your profit will be **3 600 BUX** (12%) from the sum of the plan that was bought by your personally invited partner.

Plan VIP

Direct Bonus 12%

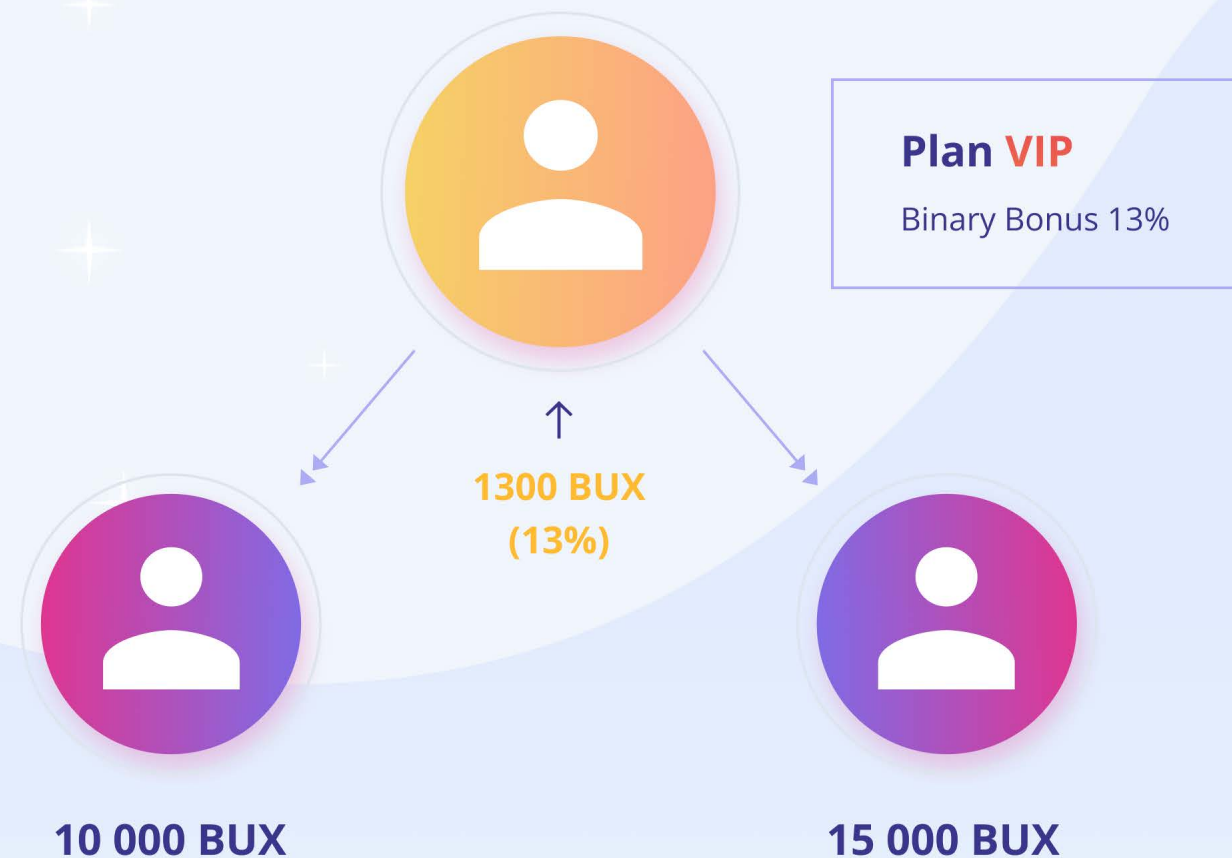

Binary Bonus

If you have BUX volume in the left and the right team, you get binary bonus.

You earn **1 300 BUX (13%)** of the binary bonus (10 000 BUX). In the right team there will be **5000 BUX** left.

As soon as the volume increases in the right team, **you will get the binary bonus again.**

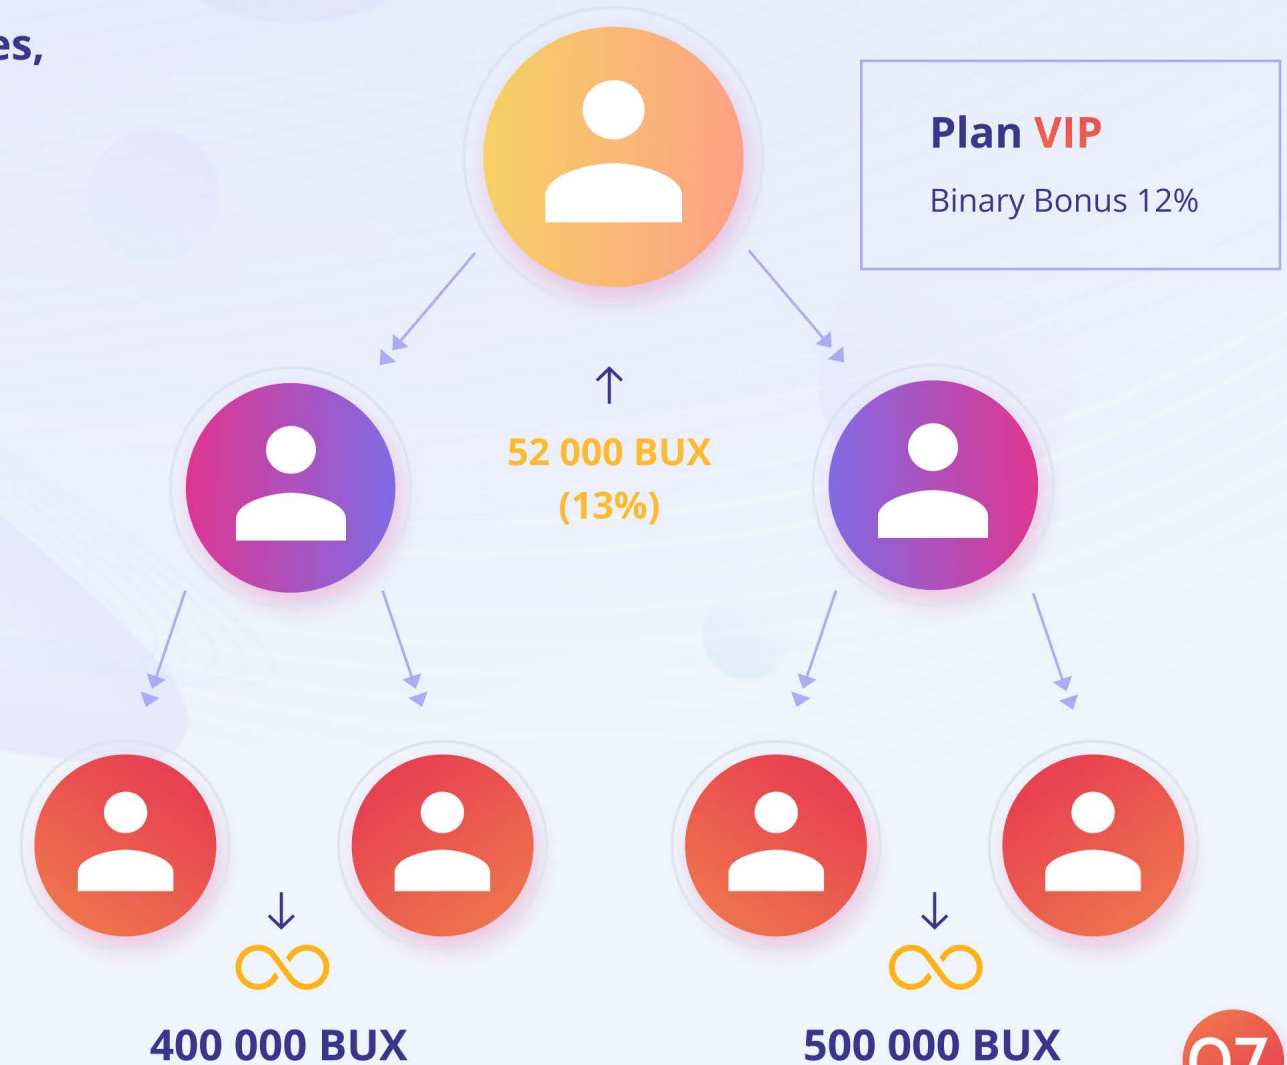

Binary Bonus

When the volume of the right and the left team increases, you will always get the binary bonus regardless of the depth level at which the new partner appeared.

This example demonstrates that if the total volume of the right team is 500 000 BUX, and of the left team 400 000 BUX you will earn **52 000 BUX (13%)**. 100 000 BUX in the right team will remain unrealized.

You will get the binary bonus again as soon as the volume in the left team increases.

It gives the unique opportunity to get the unlimited returns from the whole depth of your team.
